FABRIC PANEL

Panel is produced from two parts of wood (12 mm) and fabric covered with fiber. Front and back panels are turned into single panel using dowel and special glues. Fabrics are fire retardant.

FIXED LEG

Metal leg, body and flange are manufactured separately as two pieces. The body is produced by using a 4 mm HRP sheet and then in 40x30x1,5 mm steel box profile. Base plate is cutted from 8 mm and 2 mm thick HRP sheet. The material is electrostatic powder coated.

MOBILE LEG

Leg is produced from 8 mm HRP sheet. Then pieces bended in CNC press brake. The castor holder pieces are welded to the legs. Legs are powder coated. One panel comprises two bended legs and four castors (65 cm size).

ACCESSORIES

The note accesorie body is 80x100 cm and comprise of 18 mm melamine particleboard sheet. All side cover with edge band. The pen holder consist of 2 mm HRP sheet and powder coated.
